## Supporting “Hemp Road Trip” on the Campaign Trail

CHEA is proud to be a sponsor of “Hemp Road Trip”, the brainchild of Rick Trojan, who is currently touring the country following the Election Trail raising awareness about Industrial Hemp.

Check out their website: [www.hemproadtrip.com](http://www.hemproadtrip.com) and then donate whatever you can. Projects like “Hemp Road Trip” can really make the difference toward the goal of Federal Legalization.

Jackie Chenoweth promoting hemp at Whole Foods for Hemp History Week

Date:\_\_\_\_\_

Dear Congress Member\_\_\_\_\_,

As a citizen from the state of \_\_\_\_\_, I want to strongly urge you to Support Bills S.134 and H.R.525 of the 2016 Industrial Hemp Farming Act. Our farmers must be able to grow Industrial Hemp once again in this country. It is an excellent, non-psychoactive field crop that needs to be excluded from the definition of Marijuana in the Controlled Substance Act. Farmers in America must be allowed to financially benefit from the over \$620 Million in annual sales of hemp products sold in the U.S. that presently must be grown and imported from other countries like Canada and China.

It is truly time for sustainable solutions, and with over 25,000 different uses, the phenomenal utility of the Industrial Hemp plant makes it hands down the best solution for so many of our economic and ecological problems. Our Founding Fathers were hemp farmers and would have thought, just like the majority of people do today, that this continued prohibition is absurd and a detriment to the health and prosperity of our nation!

Thankfully, the wave of congressional support is steadily growing and many of your fellow colleagues are already co-sponsors of these bills. As citizens of good conscience and determination, we ask you to be on the right side of history and throw your support behind the 2016 Industrial Hemp Farming Act.

Sincerely,

\_\_\_\_\_
